## Summary

I am Connor Field, a recent graduate of The Iron Yard's Back-End Engineering Program. I come from a large family, I enjoy studying history, I practice Brazilian jujitsu, and I love burgers. I believe in hard, honest work, and I proved how hard I can work by completing the Python course. I aim to put my philosophy of work to good use at a local company in this compelling field.

## Skills

- Python
- Django
- RESTful APIs
- Git
- HTML
- CSS
- SQL
- Zhs/Bash

## Education

- The Iron Yard, Greenville, South Carolina  
Back-End Engineering: Python, graduated December 2016
